🐠🌟
reportcards.gitcoin.co/42161/774

This round began as an experiment during our Reef Futures 2024 workshop, bringing together stakeholders and testing new funding mechanisms. We're encouraged by the strong participation and are now planning to scale this initiative further, inviting even more traditional entities to explore and engage with these innovative approaches.

A huge thank you to everyone who donated, participated, and supported this round. Special thanks to [@gitcoin](#), [@grantsstack](#), [@aura_sci](#), and [@arbitrum](#) for making this possible.

Let's keep building the future of reefs together! 🌊🐠🌟

MesoReef QF grant (170U)

🤝 Org Collaboration

Invite MesoReefDAO to collaborate on how to expand reef protection efforts in Asia.

🎤 Community Education

Host **Mesoreef-focused talk** via DeSci Asia monthly meetings to raise coral reef protection awareness across Asia.

📊 Decentralized Fund Distribution

Use the Garden platform to fund community-led initiatives (e.g. **coral reef research case studies**, article translations, IRL meeting related to mesoreef) through transparent, on-chain, conviction voting.
